“% Positive” above refers to # of positive cases among all tests. Bottom row arrows show positivity rate vs. WHO 5% goal (dotted line). Source for graphs above and New Hampshire testing graph below right: Johns Hopkins University COVID Tracker.

Current US Hot Spots: Darker shading = more cases.

The graph below shows the total daily number of COVID-19 tests conducted in NH, and of those tests, how many were positive each day. The trend line in blue shows the average percentage of tests that were positive over the last 7 days.
