Record Type: Building Permit Application
Applicant: Elisabeth Blaisdell Address: 77 NEW CASTLE AVE, Portsmouth, NH 03801
Detailed Description of Work: A portion of the barn will still be used for storage for bikes and garden equipment and therefore left as is. The rest of the space will be insulated,
heated and cooled with a mini-split and used as a home office space for my husband and I. We will be adding a small bathroom and a loft for storage as well. The only exterior
change will be adding a condenser for a minisplit. We propose doing this on one side of the barn where a fence blocks all visibility of the condenser (from all sides/angles). We will
need to trench plumbing under our lawn to the barn but are not within any wetland delineation boundaries. Our water heater will be on demand electric, utilising the solar array we
installed just over a year ago. The mini-split will also be electric, so no gas lines will be run.
Cost: \$50000 Record ID: BLDG-20-697 Date Created:9/18/20 9:25:37 AM

Remove siding from southwest/right side of house And replace with vinyl siding and composite corner board trim. Cost: \$6000 Record ID: BLDG-20-738 Date Created: 9/30/20 1:20:57 PM Record Type: Building Permit Application Applicant: Joe Terravecchia Address: 84 GATES ST, Portsmouth, NH 03801 Detailed Description of Work: We will remove existing clapboards on the Gates St and driveway gable sides of the home. We will then repair rotten sheathing and trim as required, cover the sheathing with house wrap and then re-clapboard using Lifespan pre-primed wood clapboards at an exposure to match that of the remainder of the house. Two new wooden downspouts will be constructed and installed. Cost: \$25000 Record ID: BLDG-20-740 Date Created: 9/30/20 3:18:13 PM Record Type: Building Permit Application Applicant: Aaron Thompson Address: 130 PINE ST, Portsmouth, NH 03801 Detailed Description of Work: Roofing - Owens Corning Duration Series total protection roofing system. We resecure or replace where needed an we include the first sheet of plywood with the install if needed. New 8 inch drip edge will be installed around the perimeter of the roof in white unless another color is wanted. We install starter shingles on all edges of the roof line to give a good clean look and added protection against the wind. OC Weatherlock G Ice and water shield goes on six feet from all eaves, in all valleys, against all walls, and around all obstructions. The rest of the roof decking will be covered in OC deck defense synthetic underlay. 15 SquareRoofing - Install EPDM .06 rubber roofing system. We will attach a high density recovery board to the roof decking with screws and plates to absorb and impacts on the rubber and give us a clean surface to adhere the rubber membrane to. We then use a bonding adhesive to glue the rubber membrane to the insulation board. If we need to seam the rubber it will be done with a three inch overlap with a seam tape to give a good seal and prevent lifting of seams. All inside and outside corners and obstructions will be properly flashed using uncured cover tape to take the shape of the object flashed. Anywhere the rubber meets a wall will run up eighteen inches and siding brought down over top of the rubber. Where the roof ends will be finished with a 3x3 ball cleat drip edge and a rubber cured cover tape will cover the edge and fasteners to give a clean finish look. Windows and Doors - Set unit in rough opening. Shim to achieve level and plumb placement. Set jamb edges flush to finished wall surface. Secure unit to rough opening framing. Insulate perimeter and secure house wrap at window as appropriate. We will trim all doors and windows with the PVC composite trim. Siding - Install Certainteed Monogram vinyl siding system. Install vinyl siding with favorable site conditions. Layout, fabricate and attach vinyl siding over vapor barrier. Install using manufacturer recommended comer and edge flashing and J-channels Brick Foundation - Power wash the whole base to remove loose debris. Then grind out all loose mortar joints and repoint with Portland mortar mix. Then paint the brick with color desired as a finish look and add an extra waterproofing to the base of the house. Front Porch - Build a new frame with pressure-treated lumber and attached to the house. We will build a beam that spans the distance of each joist on the outside of the deck. This beam will rest on a 6x6 that sits on a 10-inch sonotube that goes 4 feet deep. Decking material will be hardwood Cost: \$75000 Record ID: BLDG-20-741 Date Created: 9/30/20 3:55:59 PM Record Type: Building Permit Application Applicant: Nathan Scott Address: 180 SPINNEY RD, Portsmouth, NH 03801 Detailed Description of Work: Full bath remodel relocating vanity & toilet maintaining 6'8" ceiling. Applicant: Michael Kuchtey Address: 1 JUNKINS AVE, Portsmouth, NH 03801
Detailed Description of Work: Portsmouth Police Department break room now has an electric Range cook top oven but there is currently no power in the break room to feed it.
There is a three phase 208 V panel in room number 137 first floor of the police department. There is a main distribution panel IDNP In that room feeding two adjacent panels INPLS
and INPRS. I have had a conversation with John Plouurde about this project that the city wants to accomplish and John thinks that it would be best to wait until the electrical upgrades
are completed but the facilities department and the police department want the range operating ASAP. I have calculated the run at about 130 feet I would be running 6/3 metal clad
cable and feeding the range with either a two pole 40 or 50 amp GFCI breaker. I will be certain to reach out to John Plouurde about this project and see where he stands with it now
but I wanted to get the permit wronI will be certain to reach out to John Plouurde about this project and see where he stands with it now but I wanted to get the permit moving.
Cost: \$1800

Detailed Description of Work: Complete kitchen rewire remodel. First floor full bathroom complete remodel rewire. The house has a lot of knob and tube wiring of which the homeowner would like me to get rid of all of it but that would involve a lot of demo on the second Floor Of which we are not working on. I will attempt to get rid of as much as I can While remodeling the first floor bathroom and kitchen possibly put a feeder into the attic for a sub panel but I hear they already have one up there I just donâ∈™t know what size it is

We are adding a 240 V 30 amp water heater. I will be installing wiring for pendant light fixtures and some eyeball light fixtures and a fan tech bathroom vent motor and basic outlets to code on the second floor. On the first floor is the auto garage and workshop switch to receptacles will be in the ceiling for plug-in LED work lights. There will be lots of power on that first floor for his workshop and of course lots of general purpose outlets and garage door units. A heat detector and carbon monoxide detector will be in the detached garage         Record ID: ER-20-299       Date Created:9/14/20 1:31:10 PM         Record Type: Electrical Permit: Residential       Applicant: Nathan Moss       Address: 11 MEETING HOUSE HILL RD, Portsmouth, NH 03801

So I am certain that the garage can indeed be 100 amp 30 circuit panel as it is powering a second-floor office and a bathroom and a workshop in the auto garage area. We are adding a 240 V 30 amp water heater. I will be installing wing for pendant light fixtures and a an tech bathroom vent motor and basic outlets to code on the second floor. On the first floor is the auto garage and workshop switch to receptacles will be in the ceiling for hug-in LED work lights. There will be lots of power on that first floor for his workshop and of course lots of general purpose outlets and garage door units. A heat detector and carbon monoxide detector will be in the detached garage.         Cost: \$3000       Record Type: Electrical Permit: Residential         Applicant: Nathan Moss Address: 11 MEETING HOUSE HILL RD, Portsmouth, NH 03801         Detailed Description of Work: New service for garage, wiring to customer specs         Cost: \$3000         Record Type: Electrical Permit: Residential         Applicant: Nathan Moss Address: 31 TMCETINON ST, Portsmouth, NH 03801         Detailed Description of Work: Service upgrade 100 to 200         Cost: \$3000         Record Type: Electrical Permit: Residential
