Data and graphs above show rolling 14-day averages, based on reporting from CDC, the Covid Tracking Project, and state sources, aggregated at <https://www.covidexitstrategy.org/>

2,939 new cases of COVID-19 were announced in New Hampshire from November 23 to November 29. 232 cases were announced on November 29.

The graph above shows the total daily number of COVID-19 tests reported in NH, and of those tests, how many were positive each day. The trend line in blue shows the average percentage of tests that were positive over the last 7 days.
