HYDRANT FLUSHING FOR NEXT FIVE WEEKS

-- The flushing takes place at various locations, Mon through Thurs, between 7 am and 11 pm. Flushing locations are indicated by the presence of DPW Water Division vehicles with flashing lights. The work starts on the outskirts of the city and then moves downtown as the weeks progress.

When flushing is occurring, the Water Division recommends that customers refrain from washing laundry to avoid potential discoloration of clothing. After flushing has occurred, customers can check their water clarity by running cold water to flush their plumbing systems. While flushing can result in discoloration in tap water, the water remains safe to drink. If the discoloration persists, customers should report the issue using the DPW Click 'n Fix system: <https://tinyurl.com/29h9f99c>

PROOF-OF-VACCINATIONS: What should you do if you discover your vaccination is not recorded properly in the NH DHHS database? Or if you need more than your vaccination card because some travel destinations require the full record? Contact NHIIS (NH Immunization Information System) at 603-271-4028, by email at nhiis.support@dhhs.nh.gov or click here for the NH DHHS website <https://tinyurl.com/rva3tphc> for the immunization information system (NHIIS). On this site, select the correction forms for your PCP to verify your vaccine card, DOB, etc. You will need to get the form notarized and before sending it back to NHIIS. Once your record is corrected, you can request an official vaccine and immunization record. This record is the one that would be accepted when travelling if the vaccine card is not enough.
