

YOUR TRUSTED BREED

making it happen

BLAST NOTIFICATION

April 11, 2022

Dear Property Owner/tenant;

We at Maine Drilling & Blasting would like to take this opportunity to introduce you to our company and advise you that we have been hired to perform rock removal and blasting for a sewer line extension on Sagamore Ave in Portsmouth, NH. Work will commence on or around May 2, 2022.

We would like to offer you a pre-blast survey of your home, **at no cost to you**. This is done to document any pre-existing conditions. Residences included in the pre-blast survey are within a 500 foot radius of the blasting location. If you would like to have a survey performed, please contact me at 603-232-8538 **prior to April 22, 2022**. Also, we will be glad to call you prior to each blast. If you would like to be placed on the call list, let us know.

The site will be well marked with highly visible signs that detail the whistle warning sequence that will be sounded prior to the commencement of each blast. All blasting operations will be conducted during daylight hours and no explosives will be stored at the construction site overnight. The horn will blow in the following sequence:

- 3 Long Horns – 5 minutes before the blast
- 2 Long Horns – 2 minutes before the blast
- 1 Long Horn – All clear to proceed

If you happen to be in the building during the initiation of the blast, you may experience low levels of ground vibration. We will strive to minimize the amplitude of the blast and will be utilizing the most advanced technologies available to the blasting industry to measure the seismic effect of the area. Please be assured that ground vibrations associated with the blasting will not exceed established limits that could potentially cause damage.

If you have any questions or concerns, we encourage you to contact our office (603) 232-8538, from the hours of 7:30 AM to 4:00 PM and we will respond to your concerns in a timely manner.

Sincerely,

A handwritten signature in blue ink, appearing to read 'CS', is written over a horizontal line.
